about JATVED WORLD

Established in 2021, “**Jatved World**” is a growing force in the global agriculture export industry. With deep roots in Indian agricultural heritage and a forward-looking vision, we deliver high-quality, responsibly sourced agro-products to clients around the world.

Our expertise lies in sourcing, processing, and exporting a wide range of agricultural commodities including premium basmati and non-basmati rice, coffee beans, maize, betel nut, sugar, palm oil, and more. Based in India and with a growing global presence, we aim to build strong, long-term partnerships with importers, wholesalers, and distributors across continents.

At Jatved World, quality is not just a standard — it's our identity. Every product we export reflects our commitment to excellence, consistency, and customer satisfaction.

VISION

To become a globally trusted name in the export of Indian agricultural commodities by delivering quality, value, and reliability.

MISSION

To connect global markets with India's finest agro-products.
To ensure quality at every step — from sourcing to shipping.
To build lasting relationships based on trust and transparency.
To support sustainable and responsible farming

why choose JATVED WORLD?

- **Quality First Approach**
Rigorous quality checks at every stage
- **On-Time Delivery**
Reliable logistics and prompt execution
- **Diverse Product Portfolio**
A wide range of agro commodities under one roof
- **Global Client Focus**
Export-ready processes for seamless trade
- **Custom Packaging Solutions**
As per buyer's specifications
- **Ethical Business Practices**
Transparency, trust, and long-term relationships

our PRODUCT RANGE

Discover a wide range of premium agro-products sourced from the heart of India. At Jatved World, we bring you the finest quality—carefully selected, processed, and packed to meet international standards.

coffeebeans

Coffee beans are the heart and soul of every great cup of coffee. Sourced from the finest coffee-growing regions around the world, our coffee beans are meticulously selected for their quality and flavor. Whether you prefer a smooth, mild taste or a bold, intense brew, we offer a variety of coffee beans to satisfy all your coffee cravings.

ROAST LEVELS

Coffee beans come in different roast levels that bring out various flavors in the beans

Light Roast

Retains the original flavor of the coffee bean, providing a fruity and acidic

Medium Roast

Offers a balanced flavor, preserving the bean's original taste while introducing a more developed sweetness.

Dark Roast

Bold and rich, with smoky, intense flavors that come from the roasting process.

FLAVORS

Fruity and Nutty

Light and refreshing with a sweet, pleasant aroma.

Chocolatey and Spicy

Bold and complex, with deep, rich undertones.

Smooth and Mellow

Ideal for those who prefer a more mild, well-rounded cup of coffee.

BEAN TYPES

Arabica Beans

Known for their smooth and aromatic flavors, they are often considered the higher-quality coffee bean.

Robusta Beans

Stronger, bolder, and often used in espresso blends for a more intense coffee experience.

PACKAGING OPTIONS

Our coffee beans are available in various sizes to suit your needs : **250g - 500g - 1kg**

AROMA

From mild and delicate to bold and intense, the aroma of coffee beans is a key part of the experience. Freshly ground beans offer a rich, inviting scent that adds to the overall enjoyment of brewing a perfect cup of coffee.

maize

Maize, also known as corn, is one of the most versatile and widely cultivated crops in the world. It is a staple food in many countries and serves as a vital ingredient in various food products. Whether used as whole kernels, flour, or in processed forms, maize is an essential part of both human diets and animal feed.

TYPES OF MAIZE

Yellow Maize

The most commonly grown and consumed variety, yellow maize is high in carbohydrates and is a great source of energy.

White Maize

White maize has a more delicate flavor and is often used in the preparation of traditional dishes, especially in parts of Africa and Latin America.

Sweet Corn

A variety of maize that is harvested while the kernels are still tender, sweet corn is a favorite in salads, soups, and snacks.

USES OF MAIZE

Food

Maize is a versatile ingredient, used for cooking, baking, and making snacks like popcorn. It's also processed into products like cornmeal, corn syrup, and corn oil.

Animal Feed

Maize is an important component of livestock feed, providing essential nutrients to cattle, poultry, and other animals.

Industrial Use

Maize is used in various industrial processes, such as the production of ethanol and biodegradable plastics.

KEY BENEFITS OF MAIZE

Rich in Carbohydrates

A high source of energy, maize provides quick fuel for the body.

Nutrient-Rich

Contains essential vitamins and minerals like Vitamin A, B vitamins, and magnesium.

Gluten-Free

Maize is naturally gluten-free, making it a safe option for individuals with gluten sensitivity.

PACKAGING OPTIONS

Maize is available in various forms, including whole kernels, flour, and processed products. It is packaged in: **500g - 1kg - 5kg - Bulk (for industrial or larger-scale use)**

STORAGE RECOMMENDATIONS

To maintain freshness and quality, store maize in a cool, dry place, away from sunlight. Proper storage can help extend its shelf life and preserve the nutritional value.

betel nut

Betel nut, also known as areca nut, is a key component in many cultures and is commonly chewed with betel leaves for its stimulating effects. It has a long history in traditional medicine and as a recreational chew. Betel nut is widely used across Asia and other regions for its strong flavor and energizing properties.

USES OF BETEL NUT

Chewing

Often chewed with betel leaves and slaked lime to enhance the flavor and effects.

Traditional Medicine

Used in various remedies, including treatments for digestive issues and as an anti-inflammatory.

Cultural Significance

Plays a role in religious ceremonies, social customs, and rituals in various cultures.

KEY BENEFITS OF BETEL NUT

Stimulating Properties

Contains alkaloids that help in boosting energy and mental clarity.

Antioxidant Rich

Provides a range of beneficial compounds that may help in fighting free radicals.

Digestive Aid

Traditionally used to aid digestion and alleviate stomach issues.

PACKAGING OPTIONS

Betel nut is available in the following forms:
Whole nuts - Powdered form - Diced or sliced

corrugated sheet

Corrugated sheets are essential for packaging, roofing, and construction applications due to their strength, durability, and flexibility. Made from a combination of fluted paper and linerboard, corrugated sheets provide excellent protection for fragile items and are a common choice for businesses involved in shipping and logistics.

USES OF CORRUGATED SHEETS

Packaging

Ideal for creating sturdy boxes for shipping and storing products.

Roofing

Used in the construction industry for affordable and durable roofing solutions.

Protective Layers

Often used as protective material in packaging fragile goods.

KEY BENEFITS OF CORRUGATED SHEETS

Strength and Durability

Offers excellent protection for goods during shipping and storage

Lightweight

Despite its strength, corrugated sheets are relatively lightweight, reducing shipping costs.

Eco-Friendly

Made from recycled paper, making it a sustainable choice for packaging.

PACKAGING OPTIONS

Available in various sizes and thicknesses, typically sold in rolls or flat sheets. Customizable for specific needs.

Sugar

Sugar is a staple in kitchens worldwide, adding sweetness to food and beverages. Whether it's used in baking, cooking, or as a sweetener in drinks, sugar plays a vital role in modern diets. Our sugar is refined to the highest standards, offering a pure, clean sweetness for all your culinary needs.

TYPES OF SUGAR

White Sugar

Highly refined and used widely in baking, cooking, and beverages.

Brown Sugar

Retains molasses, giving it a rich, caramel-like flavor and color.

Raw Sugar

Less refined, with a natural molasses content, often used in organic and health-conscious recipes.

KEY BENEFITS OF SUGAR

Energy Source

Sugar is a simple carbohydrate that provides a quick source of energy.

Versatility

Used in countless recipes and forms, from desserts to savory dishes.

Preservative

Acts as a preservative in jams, jellies, and canned goods due to its ability to inhibit bacterial growth.

PACKAGING OPTIONS

Sugar is typically available in: - **500g, 1kg, 5kg, and 10kg bags.** - Bulk packaging options for industrial use.

palm oil

Palm oil is a versatile vegetable oil used in cooking, baking, and manufacturing. Extracted from the fruit of the oil palm tree, palm oil is known for its high yield and wide range of applications. It is commonly used in food production, cosmetics, and biofuels.

USES OF PALM OIL

Cooking and Frying

Palm oil is widely used in kitchens for deep-frying and cooking due to its stability at high temperatures.

Food Industry

A key ingredient in processed foods like margarine, snacks, and baked goods.

Cosmetics and Soap

Used in the production of personal care products, including soaps and shampoos, due to its moisturizing properties.

KEY BENEFITS OF PALM OIL

High Smoke Point

Palm oil's high smoke point makes it ideal for frying and cooking at high temperatures.

Nutrient-Rich

Contains a balanced ratio of saturated and unsaturated fats, along with vitamins A and E.

Sustainable Options

Palm oil can be produced sustainably, offering eco-friendly alternatives for manufacturing.

PACKAGING OPTIONS

Palm oil is available in: - **500ml, 1L, and 5L bottles** for retail customers. - Bulk packaging options for industrial use.

cloths raw material

In the world of textiles, the quality of the final product begins with the purity and consistency of its raw materials. At Swar Ceramiche, we extend our commitment to quality into the textile segment by offering premium cloth raw materials sourced from reliable mills and verified vendors. These materials act as the foundation for everything from high-end fashion garments to everyday home textiles. Whether you need greige fabrics or yarns for weaving, we deliver materials that meet both traditional craftsmanship and modern machinery standards.

APPLICATIONS

- Textile weaving mills (powerloom/handloom)
- Apparel manufacturing units (shirts, denim, dresses)
- Export houses making home furnishings
- Uniform and industrial cloth producers

WHY CHOOSE OUR RAW MATERIALS

- Sourced from verified, high-capacity production units
- Inspected for uniform texture, tensile strength, and processing ease
- Competitive pricing with consistent availability
- Options for customized GSM, blend ratios, and finishes

KEY PRODUCT FEATURES

- Available types: Cotton, PC (Poly-Cotton), PV (Poly-Viscose), Rayon, Lycra blends
- Yarn Counts: 10s to 60s
- GSM Range: 100–250
- Greige or semi-processed fabric options
- High dye-fastness and low shrinkage

PACKING & AVAILABILITY

- Standard packing: Fabric rolls (20–50 meters) or yarn cones (5kg average)
- Ready stock available for regular varieties
- Custom bulk orders on request (MOQ applies)

millet

Millet is no longer just traditional grains—they've become a global symbol of healthy, sustainable eating. As the world turns towards ancient grains with high nutritional value and low environmental impact, millets stand tall. At Swar Ceramiche, we bring this supergrain to global shelves in its purest form. Our range includes nutrient-rich varieties such as Bajra, Ragi, Jowar, and Foxtail Millet, each cleaned, graded, and packed with utmost care.

APPLICATIONS / WHERE IT IS USED

- Household cooking (porridge, roti, dosa, khichdi, etc.)
- Millet-based snack and flour manufacturing
- Organic and health food stores
- Export-oriented food processors and packaging companies

TARGET BUYERS / WHO SHOULD USE IT

- Agro-exporters and food traders
- Organic and wellness product retailers
- Health food brands and flour companies
- Government & NGO buyers (nutrition programs)

WHY CHOOSE OUR MILLETS

- Cleaned and graded using state-of-the-art processing
- Minimal moisture for longer shelf life
- 100% natural, chemical-free varieties available
- Export-standard packaging with FSSAI and APEDA compliance

KEY PRODUCT FEATURES

- Available Varieties: Pearl Millet (Bajra), Sorghum (Jowar), Finger Millet (Ragi), Foxtail Millet
- Moisture Content: Less than 12%
- Purity: 99% clean
- Packaging Options: 25kg / 50kg PP bags or customized pouches
- Shelf Life: 6–12 months depending on storage

PACKING & AVAILABILITY

- Bulk and retail packaging options available
- Vacuum/air-tight options for organic exports
- Labeling as per export or private label needs
- Timely dispatch with document support (COO, Invoice, Phyto, etc.)

Wheat flour — known locally as Gehu Atta — is the heart of Indian cuisine. It forms the base of millions of meals every day, from fluffy rotis and crispy parathas to hearty puris and wholesome breads. At Swar Ceramiche, we bring you premium quality wheat flour milled from the finest grains, grown in India's wheat belt and processed under hygienic conditions.

APPLICATIONS / WHERE IT IS USED

- 🏠 Daily household cooking: roti, puri, paratha, bread, etc.
- 🏠 Restaurant and catering supply
- 🏠 Food manufacturing: snacks, biscuits, frozen parathas
- 🏠 Export to Indian diaspora-focused supermarkets

TARGET BUYERS / WHO SHOULD USE IT

- 🏠 Food distributors and grocery importers
- 🏠 Ethnic and Indian grocery stores abroad
- 🏠 Private-label flour brands
- 🏠 Industrial food processors and bakeries

WHY CHOOSE OUR GEHU ATTA

- 🏠 Sourced from high-gluten, high-fiber wheat varieties
- 🏠 No artificial whiteners or preservatives
- 🏠 Ground in traditional chakki-style mills for authentic texture
- 🏠 FSSAI certified with full export documentation

KEY PRODUCT FEATURES

- 🏠 Type: Whole Wheat Flour (Stone-Ground or Mechanically Ground)
- 🏠 Gluten Content: Medium to High (ideal for soft rotis)
- 🏠 Moisture: ≤ 13%
- 🏠 Packaging: 5kg, 10kg, 25kg, and 50kg bags (customized available)
- 🏠 Shelf Life: 3–6 months (depending on packaging)

PACKING & AVAILABILITY

- 🏠 Printed PP, paper, or cloth bags available
- 🏠 Customized printing for private labels
- 🏠 Fast loading and dispatch with full shipping support
- 🏠 Quality inspection reports and third-party testing (on request)
